

# Product introduction

Series **GREEN STAGE**

## ZERO STAGE Engine Oil 5W-40 API SN/CF

Zero Stage engine oil 5W-40 SN/CF is a gasoline engine oil that clears the standards established by API ( American Petroleum Institute ) without difficulty.

It is a high-performance engine oil to exhibit the performance in all conditions, especially excellent Fuel economy and high temperature deposit inhibitory.

### Typical Properties

Kinematic viscosity	mm <sup>2</sup> /s (cst) Kinematic @ 40° C	90.90
Kinematic viscosity	mm <sup>2</sup> /s (cst) Kinematic @100° C	14.73
Flash point (COC)	° C	228
Viscosity index		170
Pour point	° C	-39.0
Base number	mg KOH/g	5.44

### Features

■ Engine oil for 100% chemical synthesis

Chemically synthesized base oil is excellent in thermal stability and forms a strong oil film inside the engine to reliably protect the engine even under high load conditions on engines such as long cleansing on highways and congestion in urban areas to do.

■ Excellent all-purpose high-performance engine oil

Compared to mineral oil base refined base oil, 100% chemical synthetic base oil excellent in heat and oxidation stability is used, and by incorporating optimum additives, it exerts a large effect on the thermal stability at high temperature.

High oil film retention performance and shear stability performance keeps proper hydraulic pressure and lubricating action required for high performance engine over a long period of time, so it suppresses the generation of sludge inside the engine and sustains the cleaning performance.

#### Packing

4 L can / 200 L drum
